Profile Summary

Innovative and detail-oriented Software Engineer with a strong background in frontend development, website management, and digital solutions. Proven track record of building responsive, user-friendly web applications using modern frameworks like React and Next.js. Co-founder with entrepreneurial drive and experience in managing both technical development and strategic planning. Passionate about delivering clean, efficient code and enhancing user experience across platforms.

Education

IPMC University College – Accra, Ghana
Advanced Diploma in Software Engineering – Graduated December 2022
Sammy Otto Senior High School – Cape Coast
General Arts – WASSCE, 2020

Experience

Afrivolve Tech Agency — Software Engineer & Co-founder (**Full-time)** – Jan 2025 – Present

- Co-founded a tech agency delivering scalable digital solutions for startups and SMEs.
- Designed and developed full-stack web applications using React, Next.js, and Tailwind CSS.
- Reviewed and refactored code to maintain high standards in performance, readability, and maintainability.

- Led end-to-end development of client projects, from requirements gathering to deployment and support.

Heavy Dealers — Frontend Engineer **(Hybrid)** – Jan 2025 – Present

Developed and maintained responsive, high-performance user interfaces using React and Tailwind CSS.

- Optimized platform speed and scalability through caching, lazy loading, and reusable components.
- Collaborated with backend developers to integrate APIs smoothly and ensure seamless functionality.
- Worked closely with UI/UX designers to transform wireframes into accessible, user-friendly designs.
- Ensured compliance with web standards and accessibility guidelines (WCAG).
- Participated in code reviews and contributed to a clean, scalable, and stable codebase.
- Achieved < 3s page load time, reduced UI-related bugs, and improved user retention through enhanced UX.

Juberchie Enterprise —Web developer/Manager, Content & Social Media Manager **(Remote)** – Sep 2023 – Apr 2025

- Maintained and updated the company website for optimal performance, user experience, and SEO.
- Developed digital content strategies to boost brand visibility and engagement on social media.

BFT Car Rental & Estate Service — Website Manager & Social Media Manager **(Onsite)** – Jul 2023 – Jan 2025

- Managed and updated the company website to ensure optimal performance, user experience, and SEO effectiveness.

- Created and executed digital content strategies to enhance brand visibility and customer engagement on social media platforms.
- Integrated dynamic booking features and consistently maintained up-to-date property listings.

Bashalisha Consult — Website Developer **(Part-time, Remote)** – Sep 2023 – Feb 2024

- Developed responsive and visually appealing websites tailored to client needs using HTML, CSS, and WordPress.

- Ensured seamless cross-browser compatibility and performance optimization across all devices.
- Provided continuous technical support and implemented updates to ensure long-term site functionality.

Office Of the Member of Parliament for *Adenta*(*onsite)* – Data input and Communication

- Entered and organized constituent and program data to support efficient outreach and communication.
- Collaborated with team members to manage digital records, surveys, and community feedback reports.
- Assisted in planning and coordinating community engagement programs and official communications.
- Collaborated closely with UI/UX designers to enhance the presentation of digital data for stakeholders.
- Reviewed internal reports and communication drafts to ensure clarity and professionalism.
